PHOTOGRAPHIC INTELLIGENCE BRIEF

CIA/RR-HTA

INSTALLATION: Podolsk Heavy Equipment  
Plant "Ordzhonikidze" 188

BRIEF NO.: B-41-57

LOCATION: Podolsk, USSR

DATE: 5 June 1957

B.E. NUMBER: [REDACTED]

LAT.: 55°25'N

WAC NUMBER: 167

LONG.: 37°34'E

REFERENCE: Target Mosaic [REDACTED]

ENCLOSURES: Comparative photos of Podolsk Heavy Equipment Plant

REQUIREMENT RR/HTA/E/R23/57: Indicate plant expansion since  
World War II.

REMARKS:

The Podolsk Heavy Equipment Plant "Ordzhonikidze" 188 is located near the center of the city of Podolsk, approximately 20 miles south of Moscow. It is a major producer of high pressure boilers and also probably produces shell casings, gun barrels, and armored vehicle parts.

A comparison of [REDACTED] photography with that of [REDACTED] shows the addition of one large single-story building measuring approximately 630 by 680 feet (see attached graphic). This new building, which has a heavy structural steel framework, is located in the eastern part of the plant area, and is served by several rail spurs which enter the building on the south side. These spurs are part of an extensive rail network serving the plant.
